DANGER!—HIGH VOLTAGE HAZARD

Installing CTs in an energized electrical enclosure or on any energized conductor can result in severe injury or death. These CTs are for installation by qualified personnel only. To avoid electrical shock, do not perform any installation or servicing of these CTs unless you are qualified to do so. Disconnect and lock-out all power sources during installation and servicing.

This document provides instructions on connecting the Magnelab CTs listed above to the FlexSmart™ TRMS Module used with HOBO H22, U30, or RX3000 series data loggers. It also lists configuration values used by HOBOWare® software to configure the logger for each CT.
